GFS PREMIER | JUMP

Code: S751
Sizes: 17" & 17.5"
Colours: Black and Brown
Standard: Wide

The GFS Premier Jump is a forward cut monoflap saddle more suited to jumping and eventing. Extreme close contact due to the reduced bulk under the leg and girth points running through the monoflap seamlessly. The GFS saddle range leather is handpicked from the finest double stitched calf skin along with contrast stitching for a more luxurious exterior. The centre of balance spot conveniently locates you in a neutral position for close contact. The contoured dual knee block stabilises the leg without restriction allowing freedom of movement.

Centre of balance spot

Patent cantle

Contrast stitching

Monoflap design

X-change gullet system

Dual density knee block with memory foam

Smooth leather wear guard

GFS PREMIER | DRESSAGE

The GFS Premier Dressage is suited to a variety of horses with an average wither. Extreme close contact due to the reduced bulk under the leg and girthing points running through the monoflap seamlessly. The Y shaped girthing allows movement to prevent restriction under the horse's shoulder with an option of three fixing points to secure the straps. The traditionally designed carbon fibre webbed tree is flexible which give comfort to both horse and rider allowing movement in conjunction with the horse. The centre of balance spot conveniently locates you in a neutral position for close contact. The contoured dual knee block stabilises the leg without restriction whilst maximising comfort with the layer of memory foam to mould to the rider's leg.

Code: S752
Sizes: 17" & 17.5"

GFS PREMIER | GIRTHS

FREEDOM EXCEL GIRTH

Code: B230
Sizes: 24"-30"
Colours: Black and Brown

The Freedom Dressage girth is anatomically contoured around the horse for maximum comfort using extra padding and extremely soft leather. The girth has minimal stitching on the inside for a smooth even finish. The girth features a D ring and leather pockets to facilitate tucking away the girthing straps. This girth is sure to reduce pressure and increase horse's freedom of movement. All buckles are stainless steel.

ENDURANCE GIRTH

Code: B235
Sizes: 44"-54"
Colours: Black and Brown

The Endurance girth is anatomically shaped and contoured around the horse for maximum comfort. The extra padding and extremely soft leather enable maximum comfort. The girth has minimal stitching on the inside for a smooth even finish. The girth features D rings for training related items and a leather strap for martingales and breast plates. This extremely soft and padded girth is sure to reduce pressure and increase the horse's freedom of movement. All buckles are stainless steel.

GFS PREMIER | ACCESSORIES

Designed with quality comfort and performance in mind. To compliment the rest of our premier collection. The headcollar comes with an anatomically shaped headpiece. Padded noseband to even pressure and to comfort whilst wearing for long periods of time. Adjustable from both sides. Throat lash including clips on both sides.

PREMIER STIRRUP LEATHERS

Code: B250
Sizes: 55" & 60"
Colours: Black & Brown / Contrast Stitch & Matching

The GFS stirrup leathers compliment the whole of the Premier range with performance comfort and quality in mind. Internal webbing to minimise stretch, covered in a high-quality calf skin. Optional contrast stitch detailing.

PREMIER BROWBANDS

Code: B288 / B270 / B271
Sizes: Cob & Full
Colours: Black and Brown

GFS PREMIER | SADDLE FEATURES

The GFS Premier saddle range is beyond extraordinary, built on a traditionally shaped carbon fibre webbed tree designed on a CAD machine for precision. With comfort at heart of the saddle range all features are designed around the horse and rider's best interest. The saddle panels are wider and flatter than an average saddle to distribute any pressure on the horses back. The webbing on the tree allows movement for both horse and rider to prevent restriction. Dual density knee blocks give the rider the best possible security in the saddle without restriction. The monoflap design gives the rider the closest contact possible to the horse.
